

Mr Surendra Lingareddy, Director, APJ, Volteo

Surendra Lingareddy is the Director of Asia Operations for Volteo. In his current role, he engages with global customers to drive enterprise automation leveraging IoT and Service Management. He strongly believes in the convergence of IT and OT technologies using IoT. In addition to his operations role, he also heads the product vertical pertaining to Ports and Shipping for Volteo. In India, he lead the launch of Smart Port, a paperless transaction model for Agents and Ports. Prior to joining Volteo, Surendra worked for Storage, Education and Semi-conductor fields for 13 plus years. He holds a Masters degree in Engineering Management from Portland State University, Oregon and Bachelors in Chemical Engineering from Bangalore University.
