

WHERE
SHIPPERS
MEET SERVICE
PROVIDERS

SMART LOGISTICS SUMMIT & AWARDS

Smart Logistics Summit and Awards (SLSA) is a unique platform, which brings shippers in direct contact with service providers to bridge information gaps and share pain points. This forum will support the efforts of service providers to serve their customers better and also provide opportunities to find new customers.

CONNECTING WITH HINTERLAND

For long stakeholders have been discussing infrastructure and regulatory issues at shipping and logistics conferences. These discussions were limited to service providers with little or no involvement of end customer - the shipper.

Smart Logistics Summit gives a new definition and direction to the whole exercise by bringing shipper onto the centre stage.

FOCUS AREAS

Connecting the exporters and importers with port/terminals, carriers and logistics service providers

Enabling better understanding and finding solutions for the bottlenecks in seamless cargo movement

Finding more efficient and cost-effective transport options and service offerings

Mapping existing and missing infrastructural requirements

Promoting best practices and innovation

SMART LOGISTICS SUMMIT: BRINGING THE CHANGE

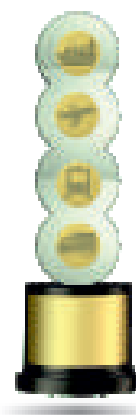

This one-day event aims to achieve the dual objectives of knowledge sharing and rewarding excellence on single platform. The summit engages industry stakeholders from all verticals and policy makers to brainstorm on cost-effective and efficient supply chain management. The event facilitates meaningful and focused interaction among all the stakeholders to bridge the gaps and progress together, while strengthening India's logistics infrastructure. After all, a country's ability to trade globally depends on its shippers' access to efficient freight and logistics networks.

SMART LOGISTICS AWARDS: INSPIRING EXCELLENCE

Smart Logistic Awards recognizes the best performers across the value chain of shipping and logistics industry. These awards encourage businesses that have overcome bottlenecks and improved their process flows with smart and innovative business strategies.

Smart awards also recognize the key players of the industry for their extreme support to EXIM market that eventually boost the overall trade.

SLSA is one of the most eagerly awaited events that is strategically held across India for an all-encompassing commercial impact. The event continues to grow from strength to strength with ever increasing participation and coverage.

WHO SHOULD ATTEND SLSA

SHIPPERS

- Importers
- Exporters
- Retailers
- Manufacturers

PORTS

- Bulk Ports
- Container Terminals
- Dry Ports

OCEAN CARRIERS

- Main Line Operators and Feeders

RAILWAYS

- Container Train Operators

- Trucking and Haulage Companies

- Distribution Centers
- Warehouses

- Government Officials

- 3PLs
- Freight Forwarders
- CHAs

- Technology Providers

- Port Equipment Providers

- Trade and Industry Associations

- Lawyers
- Insurance Companies
- Consultants

WHY ATTEND SLSA

SMARTER SOLUTIONS

Relook at smarter ways to cut down on cargo movement cost. This can translate to better margins for the industry.

STAKEHOLDER ENGAGEMENT

A unique platform to meet leaders from export & import, mining, manufacturing, metal & mineral, traders, logistics & supply chain, port & terminals operation, shipping lines and policy makers.

NETWORKING

Network with industry body representatives, senior government officials, and be a part of a solution-driven dialogue.

SHARING PERSPECTIVES

Share the current and future perspectives of your vertical/industry and showcase your company.

INCREASING PROSPECTS

Charting initiatives for further industrialization of the region and scope for downstream industries and industrial parks.

CLEARING BOTTLENECKS

Brainstorm on various supply chain related bottlenecks involving road/rail/marine/air transport, logistics parks/hubs, ICD/CFS and ports that need to aide faster cargo evacuation, market reach and production efficiency.

MAPPING THE FUTURE

Analyze and discuss various demand, production and supply scenarios for regional industries and chalk out effective road-maps for the future.

PARTNERSHIP STRATEGIES

Topics are identified in consultation with the stakeholders to deliver most useful and engaging discussions. These are highly focused and closely linked to the regional issues. Irrelevant policy discussions and national/international topics are part of this forum.

SLSA 2017: ACCEPTED AND APPLAUDED BY THE INDUSTRY

WWW.SMARTLOGISTICSSUMMIT.IN

South Asia's premier maritime business magazine, **Maritime Gateway** is committed to create a meaningful dialogue to help the shipping and logistics industry. In presenting cutting-edge information on the latest happenings, topical issues and current trends in the industry in the most lucid and coherent way possible, we are guided by a very strong and knowledgeable editorial advisory board, extensive support from trade bodies and associations.

We have created some annual discussion forums such as **Containers India**, **The Gateway Awards**, **Maritime CEO Conclave**, **South Asia Maritime & Logistics Forum** and **Smart Logistics Summit & Awards** that are well attended by the industry. Our event management division - **Gateway Events** strives towards flawless execution, be it small meetings or largest of events. With more than 10 years exposure gained to this industry, we prepare market reports and conduct primary and secondary market analyses.
