days for clearance**

# E-Xpressway Web - based PCS

A web based solution developed to speedup container terminal operations by automating end to end documentation processes related to containers that are moving by road or by rail in and out of the terminal for export or import

Allows various stakeholders such as Vessel Agents, Container Agents, Custom House Agent, Terminal Operators and Customs to perform required tasks efficiently saving both time and money

Tracking of forms with processed for either getting gated in or gated out of the terminal, reducing waiting time at the terminal gate

Caters processing of forms for Export Import and Transshipment containers

# Booking Facilitation
